

Instructions

Before beginning you may need to download and install PyLucene and Flask

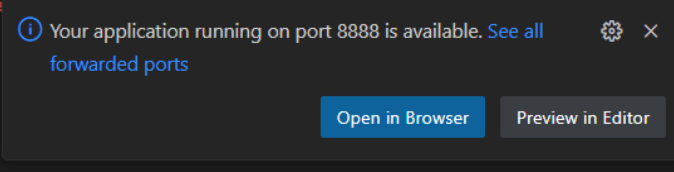

Within an Editor(Can use VsCode)

- 1.) Download and unzip the folder
 - Make sure the files include extra.json, flask_demo.py
- 2.) Once Installed open a new terminal window
- 3.) Navigate to the installed folder
- 4.) In terminal first run: “export FLASK_APP = flask_demo”
- 5.) Then run “flask run -h 0.0.0.0 -p 8888”
 - The commands are also written in the comments at the beginning of the file flask_demo.py

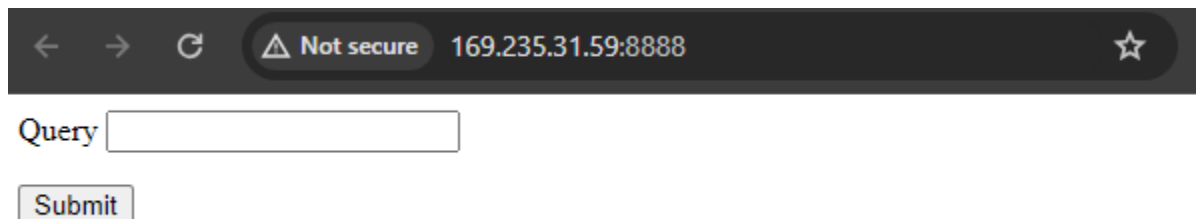

```
cs172@class-054:~/Ethan/flaskApp$ export FLASK_APP=flask_demo
cs172@class-054:~/Ethan/flaskApp$ flask run -h 0.0.0.0 -p 8888
```

- 6.) A pop up window may show up, click Open in Browser to launch the flask application in your browser with the given port:

```
cs172@class-054:~/Ethan/flaskApp$ flask run -h 0.0.0.0 -p 8888
* Serving Flask app 'flask_demo'
* Debug mode: off
WARNING: This is a development server. Do not use
r instead.
* Running on all addresses (0.0.0.0)
* Running on http://127.0.0.1:8888
* Running on http://169.235.31.59:8888
Press CTRL+C to quit
```

- 7.) A new tab should open on your browser with the Flask application.
 - If there is trouble loading the page, in the terminal window type: “curl <http://169.235.31.59:888>”
 - Then click the link and open it and a page will appear the looks like this:

- 8.) Type in a query and the top ten documents(reddit posts) should appear and you are able to scroll through or search again with a new query

Search Again

Body:

Hello, I'm 15 turning 16 and I've been playing football (soccer) since I was 4, I've been wanting to play another sport because that's what I like to do and I thought about hockey since its the 2nd biggest sport here, is there any hope for me starting, I can skate but that's pretty much all I can do

Comments:

It's never too late to start and have fun, or even achieve an interesting level of hockey. It **is** too late to play professionally likely though nothing is impossible. Don't learn to play with the *end goal* in mind. learn to play with the goal of *enjoying the*
